

Features

R290 efficient environment protection refrigerant.

Booster mode makes 75deg.C max hot water.

Noise reduction design provides a super quiet at 45dB.

Backup built-in 2kw electric heater gives high efficiency at any conditions.

50mm foaming insulation make sure the heat pump stable working under -7 deg.C

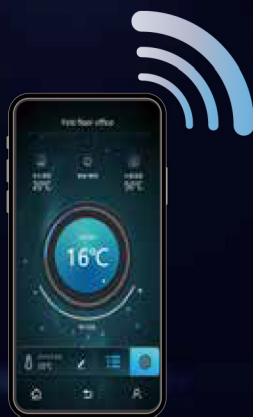

Patented SPD defrosting technology ensures that the heat pump water heater defrosts quickly at low temperatures.

When the water temperature in the water tank is higher than the set value, the backup electric heater will be automatically turned off.

Tank temperature at 65°C to prevent the growth of bacteria and legionella.
